SOURCE DESCRIPTION:

On December 12, 2007 Griffin Industries, Inc. (Griffin) submitted a renewal application of their permit V-02-033R1 for their rendering and bakery scrap facilities in Butler, Pendleton County, Kentucky. The rendering facility processes animal by-product materials into tallow, grease, and high protein meat and bone meal. The bakery scrap operation dries scrap breads and dough to form cookie meal. There have been no significant changes at the facility since the last permitting action.

PUBLIC AND AFFECTED STATE REVIEW:

Affected states (Ohio and Indiana) were notified of the issuance of the draft permit on April 7, 2008 via e-mail. On April 15, 2008, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *Falmouth Outlook* in Falmouth, Kentucky. The public comment period expired 30 days from the date of publication.

Comments were received from Griffin Industries on May 14, 2008. Minor changes were made to the permit as a result of the comments received; however the Division has concluded that the proposed operation will comply with all air quality regulations and requirements. Therefore, the Division has made a final determination to issue a proposed permit. A final permit will be issued after the U.S. EPA's 45-day review.
